

Please do not let LPFM radio cause me to lose the radio stations such as K-LOVE that use FM translators. K-LOVE provides me with an important service as a member of my community. Without K-Love my children will be exposed to radio programing that is unfit for young minds. I believe that K-Love provides quality programming, and wholesome entertainment for the whole family. I appreciate you making sure that I have the option of hearing K-Love thru an FM translator service instead of giving Lowe Power FM priority.
